

# PROTTEGE CAV/BMC

## Nucleus for Beef and Dairy Cattle

**PROTTEGE BMC** is a mineral and vitamin Nucleus for mixing, intended for Beef and Dairy Cattle of all ages and in all their breeding phases, containing Probiotic Additive, Vitamin B complex and Iron in high concentration.

### HOW TO USE:

Mix 500 grams of PROTTEGE BMC in 25 kg of mineral supplement or feed and after mixing give the final product to the animals at your discretion, preferably in covered troughs.

### BENEFITS:

#### TO THE ENVIRONMENT (BIOCONTROL)

- Helps balance spraying handling
- Promotes balance among populations of ticks, horn flies and larvae
- Preserves the environment

#### TO THE HUMAN HEALTH AND FOOD SAFETY

- Reduces the risk of illnesses caused by continuous spraying of poisons in rural workers, rural producers, their families and consumers
- It does not cause residual effects in meat for human consumption

### Guarantee levels per kg of product:

Description	Guarantee	Unit
Iron (minimum).....	15.0000	g/kg
Sulfur (minimum).....	198.0000	g/kg
Vitamin B2 (minimum).....	8.0000	mg/kg
Vitamin B12 (minimum).....	10.0000	µg/kg
Vanilla aroma (minimum).....	1, 000.0000	mg/kg
Saccharomyces cerevisiae (minimum).....	7.5000x10E11	cfu/kg
Ruminobacter amylophilum (minimum).....	3.0000x10E10	cfu/kg
Ruminobacter succinogenes (minimum).....	3.0000x10E10	cfu/kg
Succinovibrio dextrinosolvens (minimum).....	4.4000x10E10	cfu/kg
Bacillus cereus (minimum).....	3.5000x10E10	cfu/kg
Lactobacillus acidophilus (minimum).....	3.5000x10E10	cfu/kg
Enterococcus faecium (minimum).....	3.5000x10E10	cfu/kg

### PRESENTATION:

5, 10, 20 and 25 kg buckets
