

MOV BAC CAV

Premix for Beef and Dairy Cattle

INDICATIONS FOR USE:

MOV BAC CAV is a vitamin Premix for mixing, intended for Beef and Dairy cattle of all ages and in all their breeding stages, containing Sodium Monensin, Virginiamycin, and Probiotic Additive.

PRODUCT NOT SUITABLE FOR EQUINES

BENEFITS:

Virginiamycin, Sodium Monensin and Zinc Bacitracin:

- Works in the cattle weight gain factory in the rumen. When animal eats grass and supplements, the bacteria normally present in the rumen use these foods to multiply itself. In this process, energy, vitamins and proteins are produced
- Helps with weight gain
- Improves carcass yield
- Reduces methane production
- Reduces the problem with acidosis
- Better absorption of nutrients
- Anticipates slaughter
- Leaves no residue
- Better absorption of dry matter
- Increases protein digestion
- Anticoccidian
